## Notifications

The adjustment to the collective pay scale salaries agreed by the collective bargaining parties on the basis of the last collective pay scale agreement shall become effective, for the first time, in this month's salary. We have also increased your remuneration. Any payment/benefit that extends beyond the collective pay scale obligation on the basis of a company decision is made on a voluntary basis. It confers no legal right to future benefits - either on the merits or in terms of amount. Even if a payment/benefit exceeding the obligation under the collective pay scale agreement has been made/provided in several consecutive years in the past, this does not establish any standard company custom and practice or give rise to any obligation in respect of the future.
